

## **GARBAGE COLLECTION CHANGES Effective April 1<sup>st</sup>, 2017**

The Village of Cedar Grove has contracted with Advanced Disposal to provide curbside trash and recycling collection. As part of the new contract with Advanced Disposal, the Village is switching to an automated cart system. This will be safer for employees and cost the Village less than continuing with the current method of collection.

Advanced Disposal is on the cutting edge of new technology to recycle and haul wastes. The biggest change you will experience is that all recyclables and garbage will need to be placed in separate 32-, 65- or 95-gallon carts. We recommend you continue to use bags when placing recyclables and garbage in the carts, but the bags for recyclables will no longer need to be clear or blue.

There will be no cost to you for one of each type of cart, and you will have your choice as to size. The carts are color-coded: the blue top = recycling and gray top = garbage. For an annual fee, you can contract for additional carts through Advanced Disposal, 920-458-6030.

Carts will be distributed the week of April 3, 2017. The first pickup with the new carts will be April 7, 2017.

Every resident will be provided two 65-gallon carts unless a different size is requested. There are carts located at the Village Office to help you with your decision. Both carts must be the same size. To request a different size cart, please complete the attached form and return to Advanced Disposal at the address listed by February 28, 2017. **If you do not request a different size by February 28, 2017, but will require one after the carts are delivered, there will be a \$35.00 swap fee.**

After April 7, 2017, every resident will be allowed to change the size of the carts once each calendar year without a fee.

### **Carts should be placed for pickup by 7:00am every Friday.**

- Your carts should be within 18 inches of the curb, or the pavement edge for properties without curbing, with the arrows on the lids pointing toward the street. Carts cannot be placed on the street. If there is snow, please clear an area in the terrace, or leave the carts at the end of your driveway.
- To avoid damage to property, place the carts at least three feet away from mailboxes, lampposts and other fixed objects.
- Place the carts on as level a surface as possible, but away from low-hanging tree branches.
- Place carts at least three feet away from each other.
- All garbage and recycling **MUST** fit in each cart. Any garbage or recycling that is not contained in the carts, will not be picked up.
- Close the lids for driver identification and to stop material from spilling or blowing away.
- Carts not properly placed will be tagged and not picked up.
- The Village of Cedar Grove will provide a dumpster at the current Recycling location once quarterly for bulky item drop off. Dates to be determined.
- **Only carts supplied by Advanced Disposal will be emptied.**

Carts remain the property of Advanced Disposal and cannot be taken with you if you move. You will be charged a \$100 fee for loss or damage to the carts in excess of normal wear and tear.

**Call Advanced Disposal, 920-458-6030, if you have any questions regarding the cart program or experience any service issues.**

<b>Materials</b>	<b>Place in Which Cart</b>	<b>Notes</b>
